

JANUARY 1952

Table for January 1952 showing astronomical data including EPHEMERIS TIME, LONGITUDE at NOON, and DECLINATION at NOON for various days of the month.

FEBRUARY 1952

Table for February 1952 showing astronomical data including EPHEMERIS TIME, LONGITUDE at NOON, and DECLINATION at NOON for various days of the month.

JANUARY 1952

Table for January 1952 showing astronomical data including EPHEMERIS TIME, LONGITUDE at NOON, and DECLINATION at NOON for various days of the month.

FEBRUARY 1952

Table for February 1952 showing astronomical data including EPHEMERIS TIME, LONGITUDE at NOON, and DECLINATION at NOON for various days of the month.

MARCH 1952

Table for March 1952 showing astronomical data including EPHEMERIS TIME, LONGITUDE at NOON, and DECLINATION at NOON for various days of the month.

Table for March 1952 showing astronomical data including EPHEMERIS TIME, LONGITUDE at NOON, and DECLINATION at NOON for various days of the month.

Table for March 1952 showing astronomical data including EPHEMERIS TIME, LONGITUDE at NOON, and DECLINATION at NOON for various days of the month.

Table for March 1952 showing astronomical data including EPHEMERIS TIME, LONGITUDE at NOON, and DECLINATION at NOON for various days of the month.

Table for March 1952 showing astronomical data including EPHEMERIS TIME, LONGITUDE at NOON, and DECLINATION at NOON for various days of the month.

Table for March 1952 showing astronomical data including EPHEMERIS TIME, LONGITUDE at NOON, and DECLINATION at NOON for various days of the month.

Table for March 1952 showing astronomical data including EPHEMERIS TIME, LONGITUDE at NOON, and DECLINATION at NOON for various days of the month.

Table for March 1952 showing astronomical data including EPHEMERIS TIME, LONGITUDE at NOON, and DECLINATION at NOON for various days of the month.

Table for March 1952 showing astronomical data including EPHEMERIS TIME, LONGITUDE at NOON, and DECLINATION at NOON for various days of the month.

SEPTEMBER 1952

Table for September 1952 showing planetary positions (Sun, Moon, Mercury, Venus, Mars, Jupiter, Saturn, Uranus, Neptune, Pluto) with columns for day, time, longitude, and declination.

Table for September 1952 showing planetary positions (Sun, Moon, Mercury, Venus, Mars, Jupiter, Saturn, Uranus, Neptune, Pluto) with columns for day, time, longitude, and declination.

OCTOBER 1952

Table for October 1952 showing planetary positions (Sun, Moon, Mercury, Venus, Mars, Jupiter, Saturn, Uranus, Neptune, Pluto) with columns for day, time, longitude, and declination.

Table for October 1952 showing planetary positions (Sun, Moon, Mercury, Venus, Mars, Jupiter, Saturn, Uranus, Neptune, Pluto) with columns for day, time, longitude, and declination.

NOVEMBER 1952

Table for November 1952 showing planetary positions (Sun, Moon, Mercury, Venus, Mars, Jupiter, Saturn, Uranus, Neptune, Pluto) with columns for day, time, longitude, and declination.

Table for November 1952 showing planetary positions (Sun, Moon, Mercury, Venus, Mars, Jupiter, Saturn, Uranus, Neptune, Pluto) with columns for day, time, longitude, and declination.

DECEMBER 1952

Table for December 1952 showing planetary positions (Sun, Moon, Mercury, Venus, Mars, Jupiter, Saturn, Uranus, Neptune, Pluto) with columns for day, time, longitude, and declination.

Table for December 1952 showing planetary positions (Sun, Moon, Mercury, Venus, Mars, Jupiter, Saturn, Uranus, Neptune, Pluto) with columns for day, time, longitude, and declination.
